

*Fejlődő Kertváros*

**Dear Fellow District Residents!**

You are holding the **II. District Consultation** in your hands. The time has come again for everyone to share their opinions about important issues in our district. In response to the previous consultation, according to the wishes of the majority, we kept our doctors' offices under district administration, allowed the use of fireworks on the first and last days of the year, began an afforestation program, and continued our cat spaying program. In place of the city government, we rehabilitated Magtar Street and Rozsa Street. I'm glad that 90.5% of those who responded agreed with me that the representatives of our district must work for the people who live in the district, and party politics have no place in our district governance.

**You decided, and we acted!** And now, as before, I count on your opinion and suggestions. Please, participate in the Consultation and fill out the attached questionnaire.

**Your opinion is important to us!**

You can drop off the completed questionnaire before **October 31 2023**

at the post office, postage free, in the enclosed envelope, addressed to:
